PROFESSIONAL SUMMARY

Strategy & Operations professional with 2+ years of experience delivering INR 10 Cr in quantified impact across cost optimization, operational planning, vendor governance, and process transformation at Air India. MBA in Finance & Strategy from IIM Sirmaur, with current exposure to credit management and growing capability in AI-enabled workflow transformation, product discovery, and data-driven decision support.

WORK EXPERIENCE

ICICI Bank - Credit Manager | Bangalore, Karnataka

Jul 2026 – Present

- Support credit appraisal for lending decisions by assessing applicant cash flows, existing obligations, repayment capacity, and policy compliance across salaried and business cases
- Identify risk indicators, data gaps, and policy exceptions; synthesise financial inputs into decision-ready insights for credit-review stakeholders

Air India - Associate Manager

May 2024 – Jun 2026

- INR 10 Cr** annual savings case - led cost benchmarking across 70+ airports, presented directly to CFO
- INR 1 Cr** recovered in SLA penalties through data validation and stakeholder negotiations
- Built Annual Operating Plan (AOP) for airport operations with **5%** variance; presented budget to CFO
- Developed manpower & equipment optimization model for 350+ roles with 15-year financial forecast
- Created SLA framework across 8 vendors; improved penalty recovery rate from **40% to 85%**
- Designed centralized contract management repository reduced document retrieval time by **50%**
- Led operational analysis across 9+ functions during Air India–Vistara merger, identifying 5+ critical risks
- Built first-of-its-kind SLA performance portal for real-time tracking; achieved **2x** reporting of SLA
- Redesigned ground-handling contract lifecycle, cutting approval cycle from **60 to 50 days (~17%)**
- Streamlined communication (100+ email IDs and 2K+ employees): reduced response delays by **50%**
- Improved CSAT by 7 points and reduced escalations by 18% through a data-driven CX roadmap

AppsForBharat - Go-To-Market (GTM) Intern

Apr 2023 – Jun 2023

- Assisted in mapping GTM strategy for a product vertical, researched ICP, evaluated 5+ acquisition channels; supported demand generation campaigns tracking 500+ weekly installs
- Contributed to 2 sales enablement materials (pitch deck, one-pager) for onboarding pandit network partners; monitored GTM KPIs (CAC, MQLs, activation rate, engagement rate)

EDUCATION

IIM Sirmaur | Master of Business Administration - Finance & Strategy.

March 2024

Senior POC, Operations Club - managed national case competition (500+ participants from 50+ B-schools); secured INR 30,000 in sponsorships

Guru Nanak Dev University, Amritsar, Punjab | Bachelor of Commerce - Finance

August 2021

AI PROJECTS

VOIC – Verifications of Obligations, Income & Confidence | Independent AI Product Project

- Built a GenAI pipeline that parses bank statements and scanned ITR documents, cross verifying declared income using Gemini's multimodal API including an LLM-based fallback for unrecognized formats.
- Engineered income-type-aware confidence scoring (salaried/business/rental), reducing a ~30-minute manual review to under 5 minutes, validated across 20+ test scenarios.
- Diagnosed and fixed a false-positive bug that misclassified legitimate business income patterns as fraud risk, through systematic edge-case testing before deployment.
